

Stealth Network Services Inc. Achieves SMB Specialization from Cisco in Canada

Calgary, AB., Canada– March 30, 2010 – Stealth Network Services Inc. announced today it has achieved SMB Specialization from Cisco®. The SMB Specialization recognizes Cisco resale channel partners whose primary focus is on the small and medium-sized business (SMB) market with fewer than 250 employees.

”This certification demonstrates our commitment to both Cisco Systems and small businesses, and allows us to bring our years of sales and support of Cisco solutions to even wider audience said Robert James, President Stealth Network Services Inc.”

“The Cisco SMB Specialization was created in response to customer demand for channel partners to be capable of designing and implementing SMB-specific Cisco solutions,” said Surinder Brar, senior director of worldwide channels at Cisco. “With the SMB Specialization, Stealth Network Services Inc. has made an investment in obtaining the training, skills and knowledge necessary to play a pivotal role in meeting this increasing demand.”

To earn SMB Specialization, Stealth Network Services Inc. fulfilled training and exam requirements. Stealth Network Services Inc. also met the personnel, training, and post-sales support requirements set forth by Cisco.

The Cisco Resale Channel Program provides partners with the training required to build sales, technical and Cisco Lifecycle Services skills. Cisco resale partner certifications—Gold, Silver, Premier and Select—represent an increasing breadth of skills across key technologies and a partner’s ability to deliver integrated networking solutions. Cisco resale partner specializations—SMB, Express, Advanced, and Master—reflect an increasing depth of sales, technical and service expertise in particular technologies.
